PAOLA NAVONE

A visionary creation by Paola Navone, the Copenaghen tables elevate the concept of furnishing accessories into true functional sculptures. This exclusive collection plays with the purity of form to create an aesthetic experience of extraordinary refinement—where visual lightness and theatrical presence merge in perfect harmony. Finely crafted metal bases form airy, intricate structures that appear to defy gravity, elegantly supporting the precious metal tops above. These surfaces are finished to catch and refract light like natural prisms, transforming their surroundings with shifting reflections—reminiscent of wind-kissed water. Available in refined single or double-height configurations, Copenaghen tables integrate effortlessly into any contemporary interior, becoming focal points that illuminate the space with their distinctive character. True design jewels that transcend mere utility, they act as transformative elements within any setting.

Structure: frame and top in polished stainless steel with ''water'' effect.
